

General Math Graduate Assistantship Analysis - Fall 2025

Tracking hours, student sessions, and weekly engagement from Week 4 onward (When students started showing up)

General Math Graduate Assistantship Summary – Fall 2025

This report provides a concise overview of my graduate assistantship activities during Fall 2025, focusing on hours worked, student engagement, and weekly patterns from Week 4 onward.(When students started showing up)

Total Hours Worked With Students: 73 hours 12 minutes

Student Support Overview:

I worked with four students across multiple math courses. Engagement levels varied, with some students attending more regularly as the semester progressed.

- AM: 53.41 hours across 31 sessions
- RL: 11.39 hours across 9 sessions
- KB: 7.07 hours across 4 sessions
- MG: 0.45 hours in 1 session

Course Breakdown:

Most support hours were associated with Applied Calculus, with additional sessions provided for Finite Math and Mathematical Foundations.

- Applied Calculus: 65.20 hours, 40 sessions
- Finite Math: 7.07 hours, 4 sessions
- Mathematical Foundations: 0.45 hours, 1 session

Weekly Hours (Weeks 4–14):

Hours fluctuated depending on student attendance and course needs. Higher activity occurred during mid-semester and near the end of the term.

(Week 11, was the week I took 2 days off to attend Quantum Summit, and it was also the week right after the midterms, so had less students. Week 14, was Thanksgiving week.However I worked with a student on Wednesday and Friday remote.)

Weekly totals:

6.35, 9.12, 9.02, 7.00, 6.10, 4.33, 7.52, 1.20, 4.39, 8.48, 8.01 hours.

Hours by Day of the Week

Tutoring activity was highest Tuesday through Thursday, which aligned with student availability and course schedules.

- Thursday: 23.47 hours
- Tuesday: 23.12 hours
- Monday: 20.35 hours
- Friday: 3.45 hours
- Wednesday: 1.53 hours
